

HIGON est un fabricant et grossiste Topcon N Type 430W 440W Panneau solaire demi-cellule biface noir complet professionnel. Tous approuvés CE/TUV, expédiés directement en usine !

Le système Higon PowerROCK est conçu pour une utilisation en extérieur, spécialement pour les configurations haute tension. Chaque appareil de ce système offre une plus grande capacité, ce qui le rend adapté aux grandes maisons et aux petites applications C& I. Il vise à améliorer l'autoconsommation solaire, fournir une alimentation de secours et faciliter l'investissement ...

Higon 250kW-1MW Large storage solar system is working for big consumption factory or village. And the solutions can be working with container. Hot Tags : container storage system lithium battery storage system 500kw hybrid solar system off ...

SOLAR Higon Solar Co.,Ltd Specification included in this datasheet are subject to change without notice. info@higonsolar Version No: P202401 545 550 555 560 565 Electrical Characteristics Maximum Power(Pmax/W) POWER CLASS STC NMOT STC NMOT STC NMOT STC NMOT STC NMOT Operating Voltage(Vmp/V) Operating Current(Imp/A)

HIGON Specialized in Hybrid Inverter R& D, manufacturing, sales. All CE/TUV Approved. ... simple to use Scalable Up to 6pcs in parallel Both split phase and three phase parallel options All-in-one Solar Charger Controller up to 200A charging current Support for Li-ion battery BMS communication Intelligent Exclusive Li-ion battery BMS dual ...

HIGON as a leading photovoltaic company, was established in 2014. HIGON produces modules, inverters, hybrid storage systems, batteries and provide complete case analysis and supply. As a advanced PV module manufacturer in China with above 1.2GW annual production capacity and with sales of over 2.7GW solar modules in more than 110 countries.

The Higon PowerROCK system is tailored for outdoor use, specifically catering to high voltage setups. Each device within this system offers a larger capacity, making it suitable for big houses and Small C& I applications. It aims to enhance solar self-consumption, deliver backup power, and facilitate peak shaving, among other functionalities.
