

Why is battery energy storage system being introduced in Mauritius?

In view of the increasing share of the Variable Renewable Energy (VRE) in the energy mix of Mauritius, the CEB has planned for the introduction of Battery Energy Storage System on its network to arrest the fluctuation inherent to the VRE systems. The Mauritian energy transition to a low carbon economy is picking up speed.

What can I do with my electric car in Mauritius?

Your electric or hybrid car can also act as an additional battery storage. Sell your electricity: CEB Mauritius offers programs that allow you to feed excess solar energy back into the grid, earning you compensation for your contribution to the overall energy supply.

Are solar panels a good investment in Mauritius?

Tax Incentives: In Mauritius MRA offers tax credits to encourage the adoption of solar energy. These incentives can help reduce the upfront cost of installing solar panels, making them more financially attractive.
Low Maintenance: Solar panels are relatively low maintenance.

What is Mauritius' long term energy strategy?

This is in line with the Government of Mauritius' Long Term Energy Strategy 2009-2025 to increase the share of renewable energy in our energy mix (electricity production, transportation sector and manufacturing) to 35% by, namely, reducing the country's dependence on coal and heavy oil for electricity generation.

Which agrivoltaics solution is best suited to Mauritius?

Of all the solutions proposed by Akuo, the agrivoltaics concept is particularly well suited to Mauritius. It makes better use of the territory by allowing farmers to work safe, irrigated land. A question? A project?

Does Akuo have a solar power plant in Mauritius?

Already firmly established on neighboring Reunion island, for several years now Akuo has been developing operations on Mauritius, which is experiencing rapid energy changes. In 2019 Akuo commissioned the island's largest solar power plant Henrietta.
