VOL. 1 edn, Lecture Notes in Electrical Engineering, no. VOL. 1, vol. 303 LNEE, Springer Verlag, pp. 159-175, 5th China Satellite Navigation ...

High water recovery for inland desalination demands an alternative to reverse osmosis. Evaporative processes are able to reach zero liquid discharge (ZLD) but a cost-effective renewable ZLD process has been elusive.

Sunvapor is eligible to compete in the next two rounds for an additional \$1,750,000. Sunvapor's patent-pending Solar Hybrid Desalination System is designed to separate clean water from the saltiest brines to reduce the cost of wastewater disposal while supplying fit-for-purpose water for uses outside of the oil and gas industry.
