This page provides an entry point to information about the Elastic Storage Server (ESS), which includes IBM
Spectrum Scale RAID. What's new. Elastic Storage Server 5.3.6 for Power welcome page. Bulletins and
alerts. Technote: Upgrade to ESS V5.3.2 will fail in an ESS system installed with Mellanox Network Card of
type ConnectX-2.

The IBM Spectrum Scale code on customer supplied non-5148-22L protocol nodes is also managed separately
from the ESS toolsets. The IBM Spectrum Scale installation toolkit can be used in this configuration to install
or deploy and upgrade the IBM Spectrum Scale code on any customer supplied non-5148-22L protocol nodes.

In coexistence environments, the call home for IBM Storage Scale System 6000 will be from the Utility Node
EMS only at this time. Utility Node EMS exclusively manages call home events for IBM Storage Scale
System 6000 in coexistence environments until further notice. Unified call home enablement might not be
consistent on the Utility Protocol node.

file management capabilities of IBM Spectrum Scale, the IBM ESS 3000 and IBM ESS 5000 nodes can grow
to over yottabyte scalability and be integrated in to a federated global storage system.
