

Venus Solar: On Grid System is a Solar Power Generation System (SPGS) where the solar photovoltaic system is connected to the utility grid. The electricity produced by the system is routed to this grid or the electrical service provider from where it is used to run the various appliance. The Installation of an On-Grid system is fuss-free and easy to maintain.

Established in 1942, Venus Home Appliances Pvt. Ltd. has made a name for itself in the list of top service providers of heat pump water heaters,solar water heater,v guard solar water heater in country. Venus Home Appliances Pvt. Ltd. is listed in Trade India"s list of verified companies offering wide array of All In One Ceramic Heat Pump Water Heater,Evacuated Tube Solar ...
