The cost of a kilowatt-hour in the &quot;Infinite Power&quot; system is lower than the cost of a kilowatt-hour from the fuel combustion. ... Data on wind and solar energy with an interval of 10 seconds is recorded in the station's memory and transmitted to the Internet in real time.

Undoubtedly one the greatest benefits of solar power is, its a form of renewable energy, this means it is not

only sustainable but Infinite. It allow us to power homes and business with clean, safe energy from the sun. By using the sun as an energy source, Solar helps the fight against climate change, combating greenhouse gases and dramatically ...

Theoretically you would get infinite power, but the amount of power you get depending on what you decide you use varies. If you decide to use medium solar panels on platforms, you won't get as much as a solar array ... By that reasoning almost every power supply is infinite. The circumferential solar panels would be a continuous power supply ...
