The generators we offer are the perfect backup power solution for any type of home or property. If you regularly suffer from power cuts or you're looking for an alternative power ...

Home backup generators come in three main types: portable, standby and permanently installed. Portable generators are the most affordable option, starting around \$300-\$500. They're lightweight, easy to wheel around and can run extension cords into your home. But portables require more manual intervention - you have to recharge them regularly ...

Fuel is stored in an underground tank or supplied by your home's natural gas. Standby generators are larger than portable generators (7,500 watts to 48,000 watts or more), and they're more expensive, running anywhere

from \$5,000 to more than \$25,000. Standby generators need to be professionally installed by a licensed electrician.

**Best Home Standby Generator:** Generac Guardian 7209 Built in the United States, the Generac Guardian 7209 is the gold standard for home standby generators. Boasting up to 24kW of power, the Guardian can be set up to run on either natural gas or liquid propane as a fuel source (but you must decide this at installation time).

Howdy, r/generator.Was hoping to get some advice, if anyone would be so kind! I'm looking to get a generator with enough juice to power our 1,900 sq. ft home, specifically the central AC system, the refrigerator, a TV+sound system, two desktop ...
