Manx Solar Electrical undertakes every aspect of the installation, including annual servicing plus all requisite maintenance work. With utility prices rising and green issues climbing the agenda, there has never been a better time to invest in ...

Air Source Heat Pumps A highly recommended heat pump manufacturer and popular choice with our customers is Mitsubishi. For a typical 3 or 4 bedroom property in the Isle of Man we would install a heat pump out of their EcoDan range, an 11.2kw Ashp complete with a 200L cylinder would cost approximately £12,500, this includes installing and decommissioning of existing ...

Stephen Snowdon, Planning & Development Manager at Peel Cubico Renewables said: "Our vision for this solar farm supports both the Isle of Man's response to climate change and the government's ambitions for renewable energy projects to help secure a bright economic future for the island. We also recognise the cost-of-living crisis facing ...

Solar PV and Solar Thermal panels (unless stated on the applicant's MHEA) Low carbon heating alternatives e.g. heat pumps (unless stated on the applicant's MHEA)and ... As a responsible nation, and to protect our environment, our community and to safeguard our continued prosperity, the Isle of Man is committed to reaching carbon neutrality ...

Isle of Man Solar Tracker Hedley Planning submitted plans for a new solar array on the Isle of Man which were given the green light, for the erection of three pole-mounted photovoltaic trackers, the first of their kind on the Isle of Man. Each ...

"The solar farm would generate enough power to meet more than 7% of the Isle of Man's current electricity demand and support the Government's aim for electricity on the Island to be 100% green by 2030." The project represents an investment of around £30m across the 40-year anticipated life of the project, with no public investment.

Harness clean energy for your Isle of Man property with Manx Eco Installations. We specialize in solar panel

and air source heat pump installations, delivering sustainable solutions for your energy needs.

The Isle of Man Government has committed to achieving net zero carbon emissions by 2050. Residential properties are the largest carbon emission contributor in the Isle of Man and this is continuing to increase. To be able to deliver the net zero target by 2050 we all need to make changes to the way we live.
