Is it time to install solar panels in the Manx?

Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.

The 26MW Billown Solar Farm in Malew, near Castletown, would certainly produce enough power to fulfill more than 5% of the Isle of Man's power demand, when functional in 2024. Island residents are being asked for their views on the new facility which would be improved 84 acres of farming land to the west of Malew Road (A3) and south of Douglas ...
