Years ago a did. some solar testing with my F6xPS: after 7:31 hrs (aborted) I gained only 2% battery. This was in full sun.Attached a pic from the first 4 hrs. Maybe the solar functionality has increased since then, but the main functionality is still to support the battery to use less battery during an activity.

Lux Solar made going solar easy. My solar representative was knowledgeable and wasn't pushy. Lux solar had the best price and better panels than other companies I had compared. The day of install they came by and brought my family a gift and took pictures. Very nice family company! I would highly recommend them! Very honest as well! read more
