Previous Article Sif & Smulders win Transition Pieces contract for Baltyk II & III in Poland Next Article FibreMax teams up with ABS for (Floating) Offshore Wind Mooring Technologies Weekly newsletter.

His main responsibility with IX, is the creation of technical and commercial analyses and reports in the renewable energy sector, as well as all-round support for inspections and dismantling projects for offshore wind turbines. His versatile skills and knowledge in different sustainability related fields are a valuable contribution to the IX team.

Forte Renewables offers Technical Advisory, Owners Engineering and Project Management services to renewable energy investors on a global basis. Forte and IX have a long mutual track record and have established a partnership in 2020 to deliver consultancy services on the Polish offshore wind market.

IX as your decommissioning partner. The combination of our experience means that we are the right partner in a relatively new market. Support is possible in early stages by making a decommissioning plan as part of the concession but can also in creating a financial model for the decommissioning and drafting an end of lifetime strategy / life time extension plan.
