

Is Nadara operating at scale?

Toni Volpe, CEO of Nadara, said: " At Nadara we are already operating at scale. Our new combined entity is one of the largest independent renewable energy companies in Europe and gives us the flexibility and agility to scale even more efficiently.

What is Nadara's long-term strategy?

Nadara, Europe's largest independent onshore wind producer, announces the new combined entity's long-term strategy, focused on scaling up and growing to deliver an 18GW development pipeline over the next 10 years, while maximising the value of its existing operating portfolio for stakeholders.

What does Nadara do?

As a developer, owner and operator, we generate and deliver dependable, clean electricity to Europe and the US, while safeguarding the environment and positively impacting local communities. From planning to production and consumption, Nadara has a strong track record of providing services at all stages of the value chain.

Nadara | 2626 seguidores en LinkedIn. Living Energy | We're Nadara, one of Europe's largest independent power producers. We own and operate more than 200 renewable energy sites across Europe and the US, producing electricity from wind, solar, waste-to-energy, and biomass. Every day, we harness the power of nature for good.

Adesso è Nadara - nata dall'unione di Ventient Energy e Renantis - il partner di BlueFloat Energy nella promozione in Puglia dei due parchi eolici marini galleggianti, "Kailia" (al largo della costa di Brindisi) e "Odra" (al largo della costa meridionale della provincia di Lecce). Nadara è uno dei principali operatori nel settore delle energie [...]

3 August 2023 - A pioneering new renewables project which could drive forward the development of the UK's green hydrogen industry is offering potential customers the chance to secure a supply of green energy. The new 2.5 megawatt site, based in Knockshinnoch near New Cumnock in Ayrshire, will use wind energy to create green hydrogen off-grid.
