If you instead set it to hard build mode, you should boost the Advanced by 1N, and the Hybrid/Ultimate by 9N to compensate for the use of (non-renewable (except with extra bees)) uranium. I just crunched the numbers, and thought other people might be interested to know how they compare, approximately.

The Solar Panel from IndustrialCraft 2 is an upgraded version of the Generator that produces EU from the sun. The Solar Panel will only create EU during a clear day, and if there are no opaque blocks above it. It will create 1EU/t. You can determine whether or not your solar panel is working by right clicking on the block, in the GUI there is a sun icon, if it is lit the panel is working and ...

The Ultimate Hybrid Solar Panel is a block from Advanced Solars that creates EU, IndustrialCraft 2's energy, using solar power. It is the highest tier of solar panel, creating 4096 EU/t during clear days, and 2048 EU/t at nights and stormy days. They output at high voltage (8192 EU/t). It has an internal energy storage of 10,000,000 EU, and four charge slots in the GUI. Use the Quantum ...

The Advanced Solar Panel is part of the Advanced Solar Panels add-on to IndustrialCraft2 and is an upgrade

to the standard Solar Panel. In turn, it can be upgraded into a Hybrid Solar Panel and Ultimate Hybrid Solar Panel. It makes 8 EU/t during the day and 1 EU/t during the night. If it is raining or snowing, it will also make 1 EU/t, regardless of the time of day. Like all solar panels, ...

a HE solar panel should be like 6 advanced solar panels a HV transformer, advanced machine block and advanced circuit. IC2 doesn't need new types of solar panels so we can replace nukes, it needs new types of solar panels so the guy with 5000 solar panels can turn those into 100 solar panels and not have to have a giant floating platform in the sky.

Well depending on the Modpack you are using you could try either using two HV Solar Arrays (each gives off 512 eu/t) or two Ultimate Hybrid Solar Panels (again 512 eu/t each). Though of course this would only give you power during the day, though with a couple more you could store the excess into an MFSU to power during the night.

The Ultimate Solar Panel is a block added by Solar Expansion. It is the sixth and final tier of solar panel added by the mod, generating 32768 Redstone Flux per tick (RF/t) when in daylight. Note: Any energy stored inside the Advanced Solar Panels will be lost.
