Unlimited Energy Australia custom designed a solar renewable energy solution providing reliable, consistent energy to run the cool room for 24 hours and provide surplus energy for power tools, seed processing machines and lighting. The solution is comprised of: 11,7 kW solar installation and 14.4kWh Tesvolt battery system.

KYRIAZIS SA has designed and created the new KYRIAZIS solar thermal system, delivering great performance and long lifetime. Economy - Aesthetics - Performance - Autonomy. With the use of Solar System Forced Circulation, we achieve energy savings of 70% -100%, while reducing carbon dioxide emissions. The whole world of heating.

DHW producer with removable U-profile tubular heat exchanger. The DHW heating (secondary circuit), consists in natural convection in the storage tank, lapping against the external part of the tubes which compose the exchanger, which is fed by the heating fluid (primary circuit). The heating fluid can be hot water, steam or recovered hot fluids (recover circuit), condensation, ...
