Solar Products Distributors Distributors are those companies working as big warehouses that served as the middlemen between the consumer/customer and the manufacturer. Typically, in distribution, a company is handling the sourcing, stocking and logistics but nowadays they are also helping manufacturers in product designing and solving other business conflicts. Aside ...

Green Genius Latvia Solar PV Power Project is a ground-mounted solar project which is planned over 151 hectares. The project is expected to supply enough clean energy to power 41,000 households, to offset 100,000t of carbon dioxide emissions (CO2) a year.

When constructed, this solar project has an installed capacity of 115 MW. It is poised to become one of Latvia's largest solar parks, marking a significant milestone in the nation's transition towards a sustainable future. The solar park is scheduled to be connected to the Latvian grid by 2025.

How It Works The marketplace makes it easy for buyers and contractors to find trusted suppliers in a matter of clicks with no login requirements and at no cost to them. It also offers suppliers and manufacturers of solar panels, inverters, BESS, mounting system, EV Charging, and more to offer their products for sale and [...]

With Latvia's current solar capacity at only 500 MW, the new 148 MW solar farm by European Energy will provide a substantial capacity boost. (Image Source: EuropeanEnergy) Denmark-based European Energy will soon commence construction on its first solar farm in Latvia, a 148 MW facility featuring 240,000 solar panels near Targale in Ventspils ...

What are Solar Fences? In today's modern world, security becomes everyone's main concern in almost everything, and protecting properties is not excluded from that. Just like an electric fence, solar fences produce a current shock when someone or something touches them, thus providing protection and security to a property. The only difference is, solar fences are powered by solar ...
