The move coincided with OnePower's successful bid to develop the first utility-scale solar project in Lesotho, a 20-megawatt project that will sell electricity to Lesotho's central grid in addition to OnePower's minigrid work. OnePower expects that project, named Neo 1, to start delivering power to Lesotho's central electric grid next year.

The second phase of a pioneering solar mini-grids project in Lesotho is underway following the completion of a pilot project funded by REPP in Ha Makebe village, north-east of Maseru. Lesotho is one of the least electrified countries in the world, with a rural electrification rate estimated at below 20% - and solar mini-grids offer an ...
