

What is Iges Prime+?

Prime+ is the first residential energy storage system including an inverter that LGES will launch in the North American market under its own brand name. The Prime+ storage solution connects two 10H or 16H Prime battery modules in parallel to offer a capacity of 19.2-32kWh, with a maximum output of 9.6kW from the inverter.

How much does a Iges Prime battery cost?

In comparison to other similar batteries, LGES Prime batteries are much cheaper and are among the more affordable battery options we've come across. The 10H Prime typically costs somewhere between \$5,700 and \$8,500 before installation and the 16H Prime is about \$7,000 to \$11,000 before installation.

What's the difference between a 10h and 16h Prime battery?

The 10H and 16H Prime both offer solid capacity, but are lacking in modularity. What you see is what you get. One 10H Prime battery has 9.6kWh, with one 16H Prime battery offering a bit more capacity at 16kWh. You can install one additional 10H or 16H Prime for an additional 19.2kWh to 32kWh. Keep in mind that you can't mix and match sizes.

How many 10h & 16h Prime batteries can I install?

What you see is what you get. One 10H Prime battery has 9.6kWh, with one 16H Prime battery offering a bit more capacity at 16kWh. You can install one additional 10H or 16H Prime for an additional 19.2kWh to 32kWh. Keep in mind that you can't mix and match sizes. You can either install two 10H Primes or two 16H Primes.

Liechtenstein Iges 16h prime

Usable capacity: 16.0kWh: Operating window-20°C to 50°C: Depth of discharge: 100%: Dimensions: 504 x 1086 x 295mm: Warranty length: 10 years . Best Efficiency: Generac PWRcell Solar Battery.

Ich weiß, es gibt schon den großen LG 10H Thread aber der ist nicht explizit für die Prime Version die sich ja doch etwas anders verhält und auch technische Unterschiede aufweist. Bisher bin ich sehr zufrieden, die 10H Prime lässt ja mit max 4,5 kW an meinem WT, und enthält auch mit 4,5kW. Ist aber eher eine Limitierung des Wechseltrichters.
