

How can The GoM lift Madagascar out of poverty?

Access to energy is a cornerstone of the GOM's efforts to lift Madagascar out of poverty. The objective is to double energy production within 5 years, increase access to electricity for at least 70 percent of the population by 2030, improve reliability of supply, and reduce energy prices.

Does the EU support WeLight & Madagascar?

EU Ambassador in Madagascar Isabelle Delattre Burger said: "I am pleased that the European Union is supporting both private operators, such as WeLight, and the Madagascar state in its efforts to increase access to electricity, including in areas where opportunities and income levels remain low.

How much money does the EIB lent to Madagascar?

Since 1970, the EIB has lent a total of EUR904 million in support of long-term investments in Madagascar for key infrastructure as well as for the private sector. EIB Global is the specialised arm of the EIB Group designed to increase the impact of international partnerships and development finance and a key partner in the Global Gateway strategy.
