

The world is setting heat records on every continent. Last July, Europe hit new highs from London to Paris, with records also set in Germany, Netherlands and Belgium. Australia's record heat, sadly, is well-documented. And the increases are happening faster than scientists had predicted.. Solar is broadly recognized as an "easy win" to quickly reduce the ...

The United States and the Marshall Islands urgently need to address problems with the Compact Trust Fund to avoid an economic shock in the RMI in 2024, said a US government economic report on the RMI. "If the returns in a post-2024 year are insufficient...the RMI would suffer a severe fiscal shock," the report said.
