

What is a Moixa smart battery system?

Moixa Smart Battery systems are designed to be installed alongside solar panels to maximise the use of solar energy in the home and lower the owner's energy bills.

Is Moixa a regulated company?

We are authorised and regulated by the Financial Conduct Authority under reference number 767876. Moixa is the UK's leading smart battery company. We develop our Smart Battery hardware and GridShare software to facilitate smart energy storage and sharing.

What happened to the Moixa solar battery?

A few years ago, I took part in a local trial to install a solar battery in our home. The battery was excellent - and made a reasonable difference for our energy use. Sadly, last year, it died. It was prototype hardware, and these things happen. Moixa offered to replace it with an updated model - which was generous of them.

What is Moixa & how does it work?

Moixa is a British cleantech company that develops software and hardware to optimise use of renewable energy. They produce smart batteries that are paired with residential solar panels.

How many employees does Moixa Energy have?

They have about 70 employees in London. The company originally launched the Moixa Energy brand to produce a NiMH rechargeable battery called USBCell. The batteries included a USB connector to allow recharging using a powered USB port.

Why did Lunar Energy buy Moixa?

Lunar Energy acquires UK-based Moixa in support of ambitious plans to transition homes around the world to 100% clean power. Climate change is a race against the clock. In order to prevent the worst effects of this climate emergency, we now face an... How are countries worldwide tackling the residential flexibility challenge?

Your battery should have a round isolator switch that can be turned to the OFF position, when switched off the LCD screen on your Moixa Smart Battery should go blank. When the isolator is turned back on the system should automatically return back to normal operation but if this is not the case please contact your support team to investigate ...
