

What is a Moixa smart battery?

Moixa Smart Battery: Save it for later! The Moixa Smart Battery allows you to store electricity charged from your solar panels, rather than sending spare solar energy back to the grid. Take advantage of the personalised Moixa Dashboard, offering a range of live data regarding your energy generation and consumption.

Where can I find a user manual for my Moixa smart battery?

Contact us if you are on a special tarif so we can ensure your Smart Battery is giving you the best savings. This is the user manual for the Moixa Smart Battery Control Unit (MCU) V3C, both 2kWh and 3kWh. Please go to for user manuals for other products. There are no user serviceable parts in your Moixa Smart Battery.

How long does a Moixa smart battery last?

Standard Warranty: 5 years unit, 10 years batteries at 70% of initially rated capacity. **Extended GridShare Warranty:** For as long as the customer is a participant of the GridShare scheme the Moixa Smart Battery remains under warranty.

How many employees does Moixa Energy have?

They have about 70 employees in London. The company originally launched the Moixa Energy brand to produce a NiMH rechargeable battery called USBCell. The batteries included a USB connector to allow recharging using a powered USB port.

Why is my Moixa smart battery flashing?

Flashing indicates the Moixa Smart Battery is operating normally. If the red FAULT light is on it indicates that the Moixa Smart Battery has detected a fault. Please call Customer Support before performing any action. If the Moixa Smart Battery is in fault (not providing power) then it can be temporarily placed in bypass mode.

GridShare is a customer scheme designed to give every qualifying Moixa battery customer cash back, in return for Moixa intelligently managing their batteries. Using the "smart brain" built into every Moixa Battery, our GridShare helps to balance the energy demands of the National Grid, whilst letting all participants cash in on the system.
