

How much solar power does Montenegro have?

Montenegro had installed solar power capacity of just 6 MW at the end of 2020. The country's solar power capacity is significantly smaller than the electrical power demand, which is currently met by the 225 MW Pljevlja thermal power plant in the north of Montenegro and two large hydropower plants, at Perućica (307 MW) and Piva (363 MW).

Where are solar power plants located in Montenegro?

Montenegro is rich in solar radiation, particularly in the southern part, especially around the cities of Bar and Ulcinj, and in the area around the capital city of Podgorica. Solar power plants are located in these areas due to the high solar radiation.

Where can I find a list of top solar contractors?

Are French Solar Contractors a good choice?

"The prominence of French contractors is impressive", says Wiki-Solar founder Philip Wolfe, given that their home country is not in the top ten utility-scale solar markets". Eiffage and Equans (part of Bouygues) are ranked #3 and #10 respectively, thanks to projects not only in France, but also Spain, the UK and other parts of the world.
