

We are pleased to announce the 8th Mozambique Gas & Energy Summit & Exhibition, in partnership with ENH, will be returning in person to the Joaquim Chissano International Conference Center, Maputo, Mozambique from 27-28 September 2023. 25 - 27 February 2025. ... Procurement Team Lead

With the Rovuma LNG Project, the Mozambique Rovuma Venture will liquefy and market natural gas drawn from the Mamba fields contained in the offshore Area 4 concession in the ultra-deep Rovuma Basin. The Mozambique Rovuma Venture holds a stake of 70% in the Area 4 block, which holds an estimated 85 trillion cubic feet of natural gas.

Omar Mitha, chairman of Banco Nacional de Investimento (BNI), talks to The Energy Year about fostering dialogue between Mozambique's institutions and international investors and the growing importance of wind and ...

Mozambique LNG Project. The Area 1 Mozambique LNG project comprises the Golfinho-Atum gas field development in the offshore Area 1 Block of the deep-water Rovuma Basin and the construction of a 12.88 million ...

Introduction. Large scale renewable projects are becoming a point of interest for investment in Mozambique, specifically solar and hydro. Mozambique's main body to promote renewable energy access, FUNAE, expects that the capacity of on-grid renewable energy from independent power producers (IPP) will increase to 575 MW by 2030.

The company drilled the Barquentine-3 well to a total depth of about 13,400ft in water depths of approximately 5,170ft. Barquentine-3 marks Anadarko's sixth well to find recoverable natural gas in the Offshore Area 1 that includes the Windjammer, Lagosta, Barquentine and Camarao discoveries.

Mozambique plans to invest \$80 billion (EUR73 billion) in the Energy Transition Strategy (ETS) by 2050, a roadmap that the president of Mozambique, Filipe Nyusi, will present at the climate summit in Dubai.

The government of Mozambique successfully sets ambitious, realistic, and data-based climate targets, enhancing long-term climate resilience and advancing the transition to renewable energy sources on a low-emission development pathway.

UNDP's Energy team focuses on clean and affordable energy development; low-emission, climate-resilient urban and transport infrastructure; and access to ... Energy sector overview Mozambique has a total installed grid electricity generation capacity of 2,827 megawatts (MW), the majority of which is generated from renewable sources ...

Mozambique President Filipe Nyusi has presented his country's new ground-breaking energy transition plan, set to last until 2050, to international partners and potential donors at COP28, according to reports.. The US\$80 billion plan, approved by the Mozambican Council of Ministers on 21 November, outlines a comprehensive strategy to propel the nation toward a more ...

"We are proud to complete the first large scale solar power plant in Mozambique in close cooperation with our partners. The solar plant will be an important contributor to increase the share of renewable power in the country by delivering clean energy to around 175,000 households", says Raymond Carlsen, CEO of Scatec Solar.

"The formation of this strategic partnership with Rubicon provides Triton with strong support in the form of an established, professional and accredited Mozambique team." Sign up for our weekly news round-up!

Kuwaninga Energia is a 40-MW single-cycle, gas-fired power plant located in Chokwe, Mozambique. How much electricity is Kuwaninga Energia currently supplying to the grid? Christo OPPERMAN: The power plant has been operating on a stable basis, with limited downtime and supplying electricity as contracted with EDM, the National electricity ...

The gross theoretical hydro potential of Mozambique is estimated to be at least 50,000GWh/yr (11,800MW), where as the technical feasible potential is around 37,647GWh/yr (6,610MW). These figures could be higher since the data reported is based on projects that have reached the feasibility study stage, and thus have the details to confirm their ...

Mozambique LNG Project. The Area 1 Mozambique LNG project comprises the Golfinho-Atum gas field development in the offshore Area 1 Block of the deep-water Rovuma Basin and the construction of a 12.88 million tonnes per annum (Mtpa) onshore liquefied natural gas (LNG) facility on the Cabo Delgado coast of Mozambique.
