

What is O&L group & CMB Tech doing in Namibia?

The O&L Group and CMB.TECH also announced the joint venture, Cleanergy Namibia, which will develop green hydrogen production projects in Namibia including leading the green hydrogen production plant and demonstration hub, its first development in Namibia and the continent.

Is Namibia a good choice for green hydrogen production?

Namibia, a stable country, presents a promising emerging market opportunity for green hydrogen, fully supported by the government. Benefiting from some of the world's finest solar resources, Namibia's abundant sunshine makes it an optimal choice for green hydrogen production.

When will Namibia's first green hydrogen production plant start?

On Tuesday, 22 February 2022, the Ohlthaver & List (O&L) Group and CMB.TECH launched Namibia's first green hydrogen production plant. The plant, a demonstration hub for hydrogen applications, will be built in the Erongo region. The construction will start during 2022 with the aim to be operational by the end of 2023.

What is CMB Tech doing in Namibia?

CEO of CMB.TECH, Alexander Saverys: "We are delighted to announce our joint venture with O&L today and the launch of a very innovative project in Namibia. Namibia has the potential to produce green molecules (such as hydrogen and ammonia) on a large scale and at low cost."

What is Cleanergy Namibia?

It is with these encouraging prospects that we have established Cleanergy Namibia, a company designed to explore green hydrogen generation through the country's first green hydrogen demonstration plant, an investment worth about US\$18 million, set to be completed and operational in 2023."

What is GreenTech?

To date, GREENTECH CORP. has secured over \$5,000,000.00 in rebate incentives from the major utility companies for our products and projects. Our company principle has been grounded on the belief of a need and demand for a more sustainable and "eco-friendly" industrial manufacturing process.

About Home Corp Our aim is to provide stylish, hard-wearing furniture, yet still keep down prices by cutting out the middleman and importing directly from the factory. We can also offer you an astonishing array of kitchen appliances and home entertainment products that we've sourced both locally and internationally.
