

Rezolv Energy has acquired the rights to build and operate a 229 MW solar plant in Silistra Municipality in north-eastern Bulgaria. Named "St. George", construction has started in Autumn 2024 and the plant is expected to be completed before the end of 2025. Once constructed, it will be one of the largest solar power plants in Bulgaria.

A EUR3 billion energy deal is in the works: Romania starts its first CfD auction at over EUR90/MWh when prices are falling massively. In a few weeks, the dream of green energy developers could become a reality with the publication of the government decision that will implement the Contracts for Difference (CfD) scheme, another support scheme that the state makes available to the ...

When Rezolv decided to invest in the project in 2022, it was selected for its proximity to the Carpathian Mountains (12km to the north-west), which give rise to higher wind yields. To maximise the potential for power generation, the project will benefit from the latest technology, including best-in-class turbines and high voltage (400 kV ...
