

Join us for the next Battery Thursdays webinar where the expert guests discuss the topic of Securing European safety of supply - more mining or greater diversification in chemistries? Agenda. Battery materials demand in the late 2020s: A battle for scarce resources/Rystad Energy; More Nordic exploration and mining in the Nordics/Kuniko

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisi#243;n Nacional De Energia (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December).

This webinar is a part of the Nordic Battery Collaboration which is funded under the Sustainable Minerals program. The aim of this project is to organize a series of webinars looking into topics such as recycling, critical minerals and mining, big data and traceability and battery strategies.
