The Panama Solar Powered Bollard Light is a 140mm diameter bollard with an anti-glare top, designed to help direct the light downwards. The high-impact, detailed polycarbonate lens and internal reflector diffuse light evenly. The ...

Firstly, Solar is not a direct replacement for your existing utility company electric supply. For example, if, at the moment, you have several 220 Volt air conditioners that are running day and night, then solar is not for you. If you think solar will save you bundles of cash in the short term, then you will have to think again.

Incentives available for solar projects in Panama at present include an exemption from import tax, as well as the ITMBS (VAT) for the import or local purchases of equipment, parts or materials ...

The Panama Solar Powered Bollard Light is a 140mm diam. bollard with anti glare top designed to help direct the light downwards. At dusk, the Panama solar powered bollard light will illuminate at full brightness, and then follow a gradual ...

DW and I are considering the Volendam Panama Canal cruise in April 2024. The ship will be sailing the Mexico coast at the time of the solar eclipse. I've asked Holland America if it would be in position to view the eclipse, but they could not answer me. I'm wondering if anyone here might have som...
