Aside from the 100MW solar PV capacity, the Kitt Solar project is also paired with 400MWh of energy storage capacity. Solar rooftop tenders: Germany awards 259MW, France 253MW December 10, 2024

Firstly, Solar is not a direct replacement for your existing utility company electric supply. For example, if, at the moment, you have several 220 Volt air conditioners that are running day and night, then solar is not for you. If you think solar will save you bundles of cash in the short term, then you will have to think again.
