

What is Genex Power Limited?

Genex Power Limited is a company with a portfolio of more than \$1 billion of renewable energy generation and storage projects in Australia. The Company is known for its flagship Kidston Clean Energy Hub, located in north Queensland, which integrates large-scale solar generation with pumped storage hydro.

Why did J-Power acquire Genex?

By this acquisition, J-POWER aims to expand further renewable power generation and energy storage projects with Genex across Australia, where the share of renewable energy has been growing, with our knowledge and technical capabilities.

What is a transaction implementation deed with Genex?

Today, J-POWER entered into a transaction implementation deed with Genex, which sets out the terms of the agreement for the share acquisition. The implementation of the SOA requires the approval of Genex's shareholders at a general meeting for the acceptance of the share acquisition and the approval of an Australian court, among other requirements.

Why should you choose Genex?

Genex is committed to providing responsible stewardship of the natural resources over which we have control or influence. We believe that preserving, protecting and, where appropriate, remediating the natural environment is essential for the wellbeing of current and future generations. Stay ahead of the curve with the latest thinking on renewables.
