Solaready is the Philippines" trusted solar provider and solar distributor for residential, commercial and industrial markets. Our goal has always been to deliver solutions that would reach every community and free each Filipino family from the burden of rising electricity costs--making each family its own electric company.

Solar energy may lessen your utility costs by 30-50% as you generate your own electricity from a home solar energy system. With solar panels on your home, you can use electricity for free during the day. As an alternative energy source, solar panels in homes in the Philippines help reduce the use of non-renewable energy.
