

Will PGE build a battery energy storage system in Poland?

Polish state-owned power company PGE Group (WSE:PGE) is planning to build a battery energy storage system (BESS) of at least 200 MW/820MWh which will be linked to an existing pumped-storage power plant in the north of Poland. The project has obtained the first license promise in Poland for electricity storage, PGE said in a press release.

What is PGE Polska Grupa Energetyczna?

Mysia 2 in Warsaw PGE Polska Grupa Energetyczna S.A. (PGE SA or PGE Group, the name can be translated as Polish Energy Group) is a state-owned public power company and the largest power producing company in Poland. PGE is listed on the Warsaw Stock Exchange and is a constituent of the WIG30 index.

What is the energy transition in Poland?

Wholesale energy prices in Poland compared to other EU countries remain very high, and the economy's dependence on imported fossil fuels is growing rapidly. In the latest, seventh edition of the "Energy Transition in Poland" report, Forum Energii presents the state of transition play and a broader look at the overall process.

How does Polenergia provide customers with energy from the future?

We provide customers with energy from the future, i.e. a system of innovative solutions based entirely on clean and green renewable energy. through efforts in all links of our business model - generation, distribution, trading and sales. The total capacity of the projects developed by Polenergia in cooperation with Equinor is as much as 3,000 MW.

Why is energy production increasing in Poland?

At the same time, energy production from natural gas increased, by more than 40%. This is a result of falling fuel prices and the flexibility of gas generation. Wholesale energy prices in Poland compared to other EU countries remain very high, and the economy's dependence on imported fossil fuels is growing rapidly.

Does Poland have a helmsman for the energy transition?

The energy transition in Poland has no helmsman. There is no single centre to manage the process, so the changes taking place are chaotic. Poland has never offered a comprehensive vision for the decarbonisation of the economy or a plan to reduce dependence on energy resources imported from abroad.
