What is the best portable power station?

She previously worked as a writer, editor, and fact checker for several science magazines. Though she researches and tests chargers for a living, her phone battery is usually low. Our top pick for three years running, the Jackery Explorer 1000 is the best portable power station for going off the grid or prepping for an emergency.

How much does a portable power station cost?

When choosing portable power stations for this list, I wanted to offer a variety of choices that will fit both your needs and your budget. Small, basic power stations start around \$500, but larger models can cost \$3,500 or more. I included options at both ends of this range, as well as a few middle-of-the-line choices.

What is the best portable power station on Black Friday?

The EcoFlow Delta 2 Max is the best portable power station overall - but with the latest EcoFlow Delta Pro 3 currently under review here, we could have a new contender for the top spot soon.
