

How much solar power does EDP have in Portugal?

The project has a 202 MWp capacity, sufficient to power nearly 100,000 households. EDP now owns 540 MWp of solar capacity in Portugal, a technology crucial for the country's energy transition. This milestone was achieved with the commissioning of EDP Renewables' largest solar plant in Europe, located in the Lisbon district.

How much solar power does Portugal have?

The Cerca photovoltaic plant begins operation, delivering the renewable capacity assigned to EDP Renewables in Portugal's first solar energy auction. The project has a 202 MWp capacity, sufficient to power nearly 100,000 households. EDP now owns 540 MWp of solar capacity in Portugal, a technology crucial for the country's energy transition.

What is the largest solar power plant in Portugal?

On 9 October 2021, the largest solar power plant in Portugal was inaugurated in Alcoutim. With an installed capacity of 219 MW, the power plant has 661,500 solar panels and can power the needs of 200,000 homes. It occupies an area of 320 hectares and will prevent the emission of 326,000 tons of carbon dioxide every year.

How much solar power does Portugal have in 2023?

At the end of June, Portugal had 2,980 megawatts (MW) of photovoltaic capacity in operation, 419 MW more than the existing solar power at the end of 2022. This is about half of the capacity added in all of last year (860 MW), which shows that 2023 is seeing a pace of expansion of solar energy in Portugal in line with last year.

Will there be a solar auction in Portugal?

Solar power interest is growing exponentially in Portugal. João Galamba, the State Secretary for Energy, announced that more solar auctions would take place, including one in the second quarter of 2020 as well as that there were over 80,000 MW (80 GW) in projects awaiting analysis and approval.

When will small scale solar installations come to Portugal?

In addition to tenders for large scale power plants, Portugal has set a framework for the installation of small scale rooftop solar installations which came into force in January 2020.

At the end of June, Portugal had 2,980 megawatts (MW) of photovoltaic capacity in operation, 419 MW more than the existing solar power at the end of 2022. This is about half of the capacity added in all of last year (860 ...
