

Who is thornova solar?

Thornova Solar is a U.S.-based solar company that offers high-performance solar modules for the utility, commercial and residential solar markets in North America.

Is Sunova solar a subsidiary of thornova solar?

Chinese photovoltaic and energy storage solutions supplier Sunova Solar Technology Co Ltd announced on Thursday that it will unite with Thornova Solar, its sister brand used in North America and Mexico, and move forward with a new name. Solar cells. Author: Jeff Kubina. License: Creative Commons, Attribution-ShareAlike 2.0 Generic

Will thornova solar continue to provide technical support?

For time being until we do the full transition to Thornova Solar, you will receive official quotations and invoiced under the Sunova Solar brand. We will continue to provide the best technical support for your purchased Sunova Solar, co-branded and later Thornova Solar products.

Why are Sunova solar & thornova solar co-existing?

In the coming months, our two brands -- Sunova Solar and Thornova Solar -- will co-exist in our corporate communications as a reminder of our origins, an expression of our development, and a confirmation of our commitment to our customers to provide the on-going best technical support.

What happened to thornova solar?

With this in mind, we have decided to move past the Sunova Solar brand and continue our future as Thornova Solar. Our latest high-density PV panels stand for exceptional electricity production and are used in applications ranging from floating solar systems to lowlands and alpine altitudes.

Are thornova solar modules reliable?

Our management team has extensive experience in the solar industry and has established relationships with business partners in the U.S. and around the world. Thornova solar modules have proven reliability and performance, with up to 30-year performance guarantees.

California-headquartered Thornova Solar has started production of solar cells and modules at a factory on the Indonesian island of Batam. Thornova Solar's 2.5 GW production lines will supply the US market with modules ranging from 400 W to 720 W, using passivated emitter and rear cell (PERC) and n-type technology.

Thornova Solar is committed to embracing change, working as a team, being strong, being bold, being ambitious and being our own heroes. Together with our mission to become the most customer-centric energy enterprise, this makes us a trustworthy and sustainable long-term partner for our customers and all other stakeholders alike.
