

Utility-scale solar in Puerto Rico has just received an \$ 861 million boost from the federal government. On Thursday, the Department of Energy's Loan Programs Office announced a conditional commitment to finance new solar and battery storage facilities on the southern coast of the island. The two solar farms under the project are expected to provide ...

SAN JUAN, PUERTO RICO -- The U.S. Department of Energy (DOE) today announced a slate of solar companies and nonprofits selected to install rooftop solar and battery storage systems for vulnerable households in Puerto Rico through the Puerto Rico Energy Resilience Fund (PR-ERF). The first tranche of PR-ERF funding, up to \$440 million, will help ...

Empowering Puerto Rico. Building on the successful solar power projects we implemented in the aftermath of Hurricane Maria, the Solar Village Project, in a strategic partnership with Solar United Neighbors, is embarking on an ambitious initiative to solarize schools, clinics, and more community centers across Puerto Rico. This transformative program is about more than just ...

But for some of those involved in the project, those solar panels and batteries also have political implications. "We want to help decolonize Puerto Rico," says Arturo Massol-Deya, executive ...

The PR-ERF is a separate federal funding source to drive key investments in renewable and resilient energy infrastructure in Puerto Rico. For more information on how Puerto Rico can attain a resilient, 100% renewable grid by 2050, read DOE's Puerto Rico Grid Resilience and Transitions to 100% Renewable Energy Study (PR100).

The Department of Energy is ponying up more money to boost solar power in Puerto Rico, announcing on Thursday a \$861 million loan guarantee and the opening of a \$325 million grant program.

In February 2024, DOE launched the Programa Acceso Solar through the PR-ERF to connect low-income Puerto Rican households with subsidized residential solar and battery storage systems. Residents of Puerto Rico can visit energy.gov/solarPR to check their eligibility and reach out to their local Solar Ambassador to apply. Read the full Notice of ...

Puerto Rico's power grid does not have a good record when it comes to weathering powerful storms. Many on the island would like to develop a more decentralized grid powered mostly by the sun.

6 Puerto Rico Act 17-2019 (Puerto Rico Energy Public Policy Act). April 2019. April 2019. 7 The PR100 study also included an important and often overlooked finding regarding the short-term cost of improving the reliability

SAN JUAN, Puerto Rico (AP) -- The U.S. government announced Thursday that \$325 million in federal funds will be available for solar and battery storage installations across Puerto Rico as the U.S. territory struggles with chronic power outages.. The program, funded by the U.S. Department of Energy, will target community centers and healthcare facilities, as well ...

According to clean energy experts, the new facilities, dubbed Project Marahu, would be the largest solar and battery storage installations in Puerto Rico, which has primarily seen growth in small-scale clean energy ...

LPO has determined that solar photovoltaic (PV) and battery energy storage systems projects previously contracted under Tranche 1 and renewable energy projects, including solar PV and battery energy storage systems expected to be contracted in Tranches 2 and 3, will be replacing "energy infrastructure" (as defined in section 1706 of Title ...

Puerto Rico hopes solar project will secure electric grid for future hurricanes Puerto Rico's power grid does not have a good record when it comes to weathering powerful storms. Many on the island ...

The Marahú project consists of two planned solar plus storage facilities, Salinas and Jobos, that will incorporate the most advanced solar and energy storage technologies. The project is designed to create long-term value and positive impact for both the environment and local ...

Discover, analyze and download data from Puerto Rico Solar Map. Download in CSV, KML, Zip, GeoJSON, GeoTIFF or PNG. Find API links for GeoServices, WMS, and WFS. Analyze with charts and thematic maps. Take the next step and create storymaps and webmaps.

Puerto Rico's largest solar and storage system, Ciro One, has just broken ground in Salinas! The 90-MW solar and 51.5-MW battery project will feature LTO and include a 25-year warranty, plus a demonstration site for agrivoltaics to blend energy production & farming needs. Operational by the end of 2024, Ciro One will help strengthen & stabilize Puerto Rico's ...
