

Reflect Orbital General Information Description. Developer of solar light reflecting panels designed to provide reflected sunlight at night. The company uses its reflectors in space to shine sunlight on panels at night and to offer sunlight to increase the output of existing infrastructure without additional costs, enabling solar farm owners to generate electricity even after sunset.

Ben spent years diving into hundreds of technical projects before starting Reflect Orbital to train for the day when the right idea came along. In high school, he ran the "BenNbuilds" science channel featuring projects like an x-ray machine, a ...

Reflect Orbital, a science channel featuring projects like an x-ray machine, a ...

In a world where Stanford startups increasingly churn out iterations of food delivery apps and poorly disguised duplicates of ChatGPT, original thinking and boundless ambition are rare traits. However, these traits are at the core of Reflect Orbital, an energy startup with a mission so audacious it borders on science
