

I manage my neighbors/friends electric account, Smart Energy told her via telephone their rate was better, obtained her contact thru ppl, (I changed her to NO SHARING), they switched her from a rate .067 Cirro good company, to .1023. She had a contract w/cirro for 2/18 - 2/19 and would have had cancellation charges to boot. ...

Honduras: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Conference: Metering Central America & Caribbean 2008 Location: Bogota, Colombia Presenter: Jacobo Da Costa Gomez Abstract: Presented by Jacobo Da Costa Gomez at Metering Central America & Caribbean 2008

This Renewables Readiness Assessment (RRA), developed in co-operation with the Honduran Energy Secretariat (SEN), identifies key barriers and solutions to meet Honduras' targets for renewable energy development and expansion.

Smart move. Smart move, I am in Australia and still need my answers! My paperwork has been lodged and am awaiting replies! Due to the lack of assistance, There will be no more communications until I have received a ...

He is a globally acclaimed modeller, creating characters and backgrounds rendered to an incredible standard. In 2015 he co-directed the hugely successful Smart Energy GB ...

Honduras will improve renewable energy integration with an \$18 million loan from the Inter-American Development Bank (IDB). The loan will support the refitting of the Francisco Morazán (El Cajón) hydroelectric dam in Honduras' northwest alongside boosting the adaptability and integration of renewable energies to the country's power system.

La energía inteligente (smart energy) representa una transformación revolucionaria en cómo concebimos y manejamos la energía. Este nuevo modelo, impulsado por el aumento del uso de energías renovables y la integración de la tecnología, está redefiniendo el paisaje energético hacia un futuro más sostenible y eficiente.
