

The Low Power System miniControl XL plus closes with a maximum output of 1.500 W the gap between the smaller powered miniControl XL plus and the big brother midiControl plus. Through the principle of decentralization per fire compartment, similar to a single battery system, there will be no costs for E30-powerlines and their installation.

The multiControl plus system is a universally applicable, central power supply system according to EN 50171, which can be equipped with up to 96 freely programmable circuits in a service-friendly 'assembly group system. ...

Central Battery System Solution: Design and functionality, ease of use and energy efficiency, reliability and durability - products from RP-Technik must meet a wide range of requirements. We develop and manufacture our emergency and safety luminaires and our power supply systems exclusively in Germany. The performance and quality of our products have top priority - [...]

The miniControl plus (wall-mounted housing with battery compartment up to 17Ah) is a decentralised power supply system with restricted power for a 1-, 3- or 8-hour operating period, in accordance with DIN EN 50171 and DGUV V3 for supplying 230VAC / 216VDC safety and emergency exit sign luminaires. ... (MN) central battery system, combi housing ...

For over four decades, RP-Technik emergency lighting systems have ensured high levels of safety in commercial and public buildings. We are one of the leading developers and manufacturers of advanced products and cost-effective solutions in emergency lighting and safety lighting as well as being a supplier of the comprehensive RPOWER® battery series.

Doors, windows, partition walls - in case of high protection requirements, rp hermetic is the go-to steel system for attractively designed spot-on solutions. rp tecline. Filigree mullion-transom facades made of steel with face widths of 40, ...

MN108 | MAX. 12 MAINS CIRCUITS / 1.500 W, 1H / 240 LUMINAIRES The Low Power System miniControl plus closes with a maximum output of 1.500 W the gap between the smaller powered microControl plus and the big brother midiControl plus. Through the principle of decentralization per fire compartment, similar to a single battery system, there will be no costs for E30 ...

The miniControl plus (wall-mounted housing with battery compartment up to 17Ah) is a decentralised power supply system with restricted power for a 1-, 3- or 8-hour operating period, in accordance with DIN EN 50171 and DGUV V3 for supplying 230VAC / 216VDC safety and emergency exit sign luminaires.

Central battery system (32) Housing. Combined housing (67 ... RP-Technik GmbH's product range includes complete systems for up to 50,000 luminaires, supplied with power either centrally or decentrally. The different systems can be combined with each other, can be optimally customised to individual requirements and most of them are T&#220;V type-tested.

RP-Technik GmbH specializes in battery technology, manufacturing power supply systems with the RPOWER&#174; battery series tailored for emergency power, featuring excellent German engineering. They offer application-specific ...

THE SYSTEM EXPERTISE OF RP-TECHNIK Rescue luminaires Emergency luminaires ... Central battery system Central power supply. Optimum solution for large buildings with a large number of luminaires EUREUR yes high yes low high yes 1,920 per system yes yes central o Economical, as all

Doors, windows, partition walls - in case of high protection requirements, rp hermetic is the go-to steel system for attractively designed spot-on solutions. rp tecline. Filigree mullion-transom facades made of steel with face widths of 40, 50 or 60 mm. ... The extension of the Munich Central Library, realized by meck architekten, was the ...

The wireless system can include 250 luminaires per central control unit and is expandable in steps of 250 up to a total of 1,000 luminaires per system. It's organizing itself ad-hoc. ... Battery compartment. Nein. Input voltageAC. 230 V V. Input frequency. 50 / 60 Hz. Material. Kunststoff. Depth. ... Bei RP-Technik GmbH ist exzellenter Service ...

RPOWER&#174; battery cabinets are the perfect place to store your RPOWER&#174; batteries. The ready-to-use cabinets can be flexibly combined for any size of battery system - even when using our BAT-LOGG&#174; battery monitoring.. Good accessibility, well-thought-out details and intelligent ventilation maximise convenience and safety (IP 21 degree of protection) for your battery system.

The multiControl plus system is a universally applicable, central power supply system according to EN 50171, which can be equipped with up to 96 freely programmable circuits in a service-friendly 19" assembly group system. ...

No matter whether it is used as a single-battery luminaire or for connecting to central battery systems: it is equipped for virtually all requirements and always provides the right solution. ... At RP-Technik GmbH, excellent service is our top priority. ... Our internal quality management system and numerous certifications, including ISO 9001: ...
