Energy company exploring use of pioneering software with Kyiv-based DTEK British energy supplier Octopus is in talks to help power Ukraine as the country rebuilds its electricity grid following Vladimir Putin's bombing onslaught.

What is the Ukrainian Energy Foundation & Octopus Energy Tech Summit?

And so now, the foundation's mission is two-fold: to rebuild Ukraine with both sustainability and energy security in mind. Ahead of speaking at the WIRED & Octopus Energy Tech Summit in Berlin on October 10, Yuliana sat down with WIRED to discuss the foundation's work. This interview has been edited for length and clarity.

Is solar energy on the verge of a major expansion in Russia?

Vadim Braidov /TASS Solar energy in Russia might be on the verge of a major expansion, thanks to a government support program for renewable energy sources, industry experts told The Moscow Times. Russia, the world's fourth-largest emitter of greenhouse gases, has historically relied on its vast oil and gas reserves to bolster its economy.

Does Russia have enough solar energy?

There is no sun there!' Well, our data tells us differently." Moscow-based renewables company Unigreen Energy, which has received a government guarantee that it will be paid extra for the power it adds to local grids, said Russia has more than enough insolation-- solar radiation hitting an object -- to produce solar energy.

Could octopus license Kraken energy management software to DTEK?

It is understood this could potentially include Octopus licensing its groundbreaking Kraken energy management software to DTEK or even going one step further and forming a joint venture with the company, as Octopus has done with energy providers in other markets such as Japan.

Octopus said it manages nearly 7 billion pounds (\$9.4 billion) of renewable energy projects worldwide and the Exagen acquisition will help it contribute to Britain's low-carbon energy transition

Los 5.000 hogares que formen parte de Octopus Solar Family en esta primera fase disfrutarán de los beneficios de tener paneles solares, sin tenerlos, con una tarifa a precio de mercado.
