

What is SATEC energy management?

SATEC provides total energy management solutions for a broad range of applications for electricity and energy demand monitoring. Our energy expertise covers a broad range of markets including residential, commercial, industrial, utilities and solar.

How did SATEC get started?

Initial funding came from the mining industry, which had vested interest in developing novel hydrometallurgical solutions [buzzword] for the processing and smelting of gold out of ores of low gold content. Two years after, SATEC was already in its current location in Har Hotzvim, Jerusalem's Hi-tech industrial park.

What services does SATEC offer?

SATEC's U.S. and Israel branches also provide billing as a service, invoicing users and sub-tenants on behalf of commercial property owners and managers.

Where is SATEC now?

Two years after, SATEC was already in its current location in Har Hotzvim, Jerusalem's Hi-tech industrial park. Branover's son, Daniel, and Shlomo Olidort have been jointly managing the company as chief executive officer and managing director, since the company's founding.

Is SATEC a private company?

With headquarters in Jerusalem, Israel and subsidiaries in Union, New Jersey and in PRC, SATEC is a privately owned company. SATEC was first founded in 1987 as a technological business incubator by Prof. Herman Branover.

What is a SATEC EMS compliance report?

A SATEC EMS compliance report is a document that improves overall grid reliability, avoids expensive equipment failures, and resolves energy supply disputes according to EN 50160, IEEE 1519 and GOST 54149. SATEC EMS saves corporations US\$10 Million Annually.
