

Saft is a specialist in high-tech batteries for the industry, from design and development to production, customization, and service provision. For nearly 100 years, Saft has been providing its customers with batteries with increasingly long lifespans, for backup power and propulsion of their critical applications. ...

The Socié#233;té#233; des Accumulateurs Fixes et de Traction (Saft) was founded in 1918, mainly by Victor H#233;rold, which since 1913 had been manufacturing batteries for the luggage carts that were used in railway stations and for the lighting of the locomotives from the Paris-Lyon-Marseille Company (PLM). In 1924, the company was partially listed on the Paris Bourse. In 1928, the Comp...

Saft batteries to provide vital backup power for Cairo's new Metro Line 4 . 16/09/2024. Over two decades of rail reliability in India . 26/03/2024. Saft's batteries to provide emergency power for India's Himalayan rail tunnels. 21/04/2022. Cedric Duclos is ...

"During a bid process we have asked Saft to conduct a sizing study. The sizing enabled us to provide a technical proposal that would optimally serve the interests of our customer, in regard to the size of the battery system ensuring service availability, battery life and, of course, the installation's TCO."

Reliable Saft Ni-Cd battery solutions for power plants backup. Saft nickel battery solutions provide backup power to power plants to ensure the continuous, uninterrupted operation of generator units, emergency lighting, critical safety and control systems for up to 100 hours. Our high-performance Ni-Cd battery technology is designed for easy installation and minimal ...

Battery services from battery experts. From full operation and maintenance to basic service support, Saft is a long-term partner that operates a customer-centric service approach and that has a 100-year legacy in industrial batteries.. Our global team of highly skilled and experienced professionals delivers multi-level service solutions through our 4S program - Saft Services for ...

Saft provides backup Ni-Cd battery solutions for telecom equipment and network. Saft nickel batteries for telecom equipment suppliers and network operators ensure total continuity of customer service. Wireless or wireline installations, indoor or outdoor, on-grid or off-grid, Saft's portfolio of advanced, specialized battery solutions meet telecom energy needs in very hot or ...

Les batteries Uptimax sont au coeur des syst&#232;mes d' Alimentation Sans Interruption (ASI) et des syst&#232;mes d'alimentation de secours qui s'activent en cas de rupture de courant afin de permettre un arr&#234;t s&#233;curis&#233; des processus de production et la sauvegarde des donn&#233;es informatiques. ... Saft Groupe SAS Communications Department 26 ...

Saft gears up for Li-ion battery production in the Americas to support boom in ESS demand . 19/06/2024. Saft boosts density of its Energy Storage Systems and incorporates AI-enabled analytics . 10/07/2023. Grandpuits Platform: ...

Customized battery solutions. Saft is designing and manufacturing any tailor-made Li-ion battery, from chemistry to systems, including electronics. For customers designing their own electric powertrains or completing vehicles for a specific application, Saft provides a complete and fully-integrated battery solution to reply to specific needs. ...

Saft nickel battery solutions for reliable backup power in the event of a power outage. Saft cutting-edge nickel batteries play a critical role by providing an immediate and continuous supply to support substations' auxiliary loads such as switchgears, automation and protection circuits, as well as command, control and automation equipment, in the event of a power failure.

Features & Benefits. The Compact maintenance-free nickel batteries are designed to support essential control systems and other critical equipment in remote and hard-to-access locations in offshore oil and gas, utility, manufacturing, and rail trackside sites.. Manufactured in Valdosta, GA (USA), the Compact nickel battery has a small footprint and are up to 30 percent lighter than ...

The battery is based on VES16 space cells designed for LEO applications. This battery is sized for low power needs, such as microsats and nanosats, and can be used as a building block and assembled in serial and parallel for higher energy requirements. ... Saft Groupe SAS Communications Department 26, quai Charles Pasqua 92300 Levallois-Perret ...

LO, G. The Saft LO/G cylindrical primary lithium cells are based on Lithium-Sulphur dioxide (Li-SO<sub>2</sub>) chemistry and feature very high surface area spiral electrodes with high power and maximum current pulse capability.They are designed for applications using continuous currents in the 0.1-5 A range, with superimposed pulses as high as 60 A.

Mobilit&#233;, les syst&#232;mes de batteries sur mesure. Saft, la technologie de r&#233;f&#233;rence pour la mobilit&#233; de demain. De la chimie aux syst&#232;mes, en passant par l'&#233;lectronique, Saft con&#231;oit et fabrique des syst&#232;mes batteries Li-ion sur mesure. Que vous soyez &#233;quipementiers ou int&#233;grateurs de v&#233;hicules, les solutions compl&#232;tes et ...
