Founded in 1911 by Joseph Eaton, Eaton has evolved into a global leader in power management solutions,

operating in over 175 countries. Initially focused on innovating transportation technology with the first gear-driven truck axle, Eaton has expanded significantly through organic growth and strategic mergers.

The Eaton 9155 Marine UPS is DNV-GL type approved, BV type approved, and ABS design assessed (up to 15 kVA). With its compact design and internal batteries, the Eaton 9155 Marine UPS is ideally suited to applications requiring high power density and a small footprint.

Building on its leadership in delivering innovative lithium-ion battery capabilities in backup power solutions, Eaton's new UPS provides longer battery life and a smaller footprint than valve-regulated lead-acid (VRLA) battery-powered UPS technology, making it ideal for distributed, "edge" environments and light industrial applications ...
