

What is Saint Lucia's energy transition opportunity?

RESULTS Saint Lucia's energy transition opportunity provides a win-win situation in which the Government of Saint Lucia supports constituents through cheaper electricity, and LUCELEC continues to profit and provide reliable service.

What is the future of electricity in Saint Lucia?

At the same time, recent developments in energy efficiency, renewable energy, cleaner-burning fuels (e.g., natural gas), electricity storage, and advanced controls and metering present a myriad of opportunities. Saint Lucia's current electricity system is well managed, reliable, and equitable.

When did Saint Lucia start regulating electricity?

In 2010, Saint Lucia began a process to revise the electricity regulatory framework (last updated in 2006), including the concessionary agreement, in line with national objectives to increase the use of renewable energy. In early 2016, a new independent National Utilities Regulatory Commission (NURC) was established.

How can energy efficiency programs be implemented in Saint Lucia?

Energy efficiency program implementation-- Deploying a program to encourage cost-effective energy efficiency across different customer groups in Saint Lucia requires funding, staff, and appropriate regulations. If energy efficiency measures are not adopted, electricity loads will remain higher than projected.

What are Saint Lucia's energy goals?

In 2014, the Government of Saint Lucia announced refined energy targets, setting a renewable energy penetration target of 35 per cent and an energy efficiency target of 20 per cent reduction in consumption in the public sector, both to be achieved by 2020.

Are there challenges to Saint Lucia's Electricity System?

Challenges to Saint Lucia's electricity system do exist. Saint Lucia's infrastructure is vulnerable to extreme weather events; there are critical points of failure that could leave Saint Lucia without power for days due to high wind and/or flooding events, though historically LUCELEC has reestablished power quickly. In the worst

Questions or concerns regarding potential fraud should be directed to the Company's Compliance Hotline at (877) 774-9673 for calls originating from the Continental U.S. or Puerto Rico; (800) 501-6379 for calls originating from The Bahamas; (704) 526-1180 for calls originating from St. Lucia; or through the compliance website at
