La china Zoolnasm inicia las obras para un emplazamiento de producci&#243;n de bater&#237;as de iones de sodio. La revoluci&#243;n de las bater&#237;as est&#225; a la orden del d&#237;a, y no solo cada vez se necesitan m&#225;s, si no que a menudo se conocen nuevas tecnolog&#237;as que prometen mayores autonom&#237;as y materiales m&#225;s respetuosos. En el caso de las bater&#237;as de sodio, es ...

The unveiling of ZOOLNASM's world's first high-rate sodium iron sulfate sodium ion battery cell marks not only a milestone in technological innovation but also reflects our profound insight and proactive layout in the future energy market. Currently, ZOOLNASM has received positive feedback from numerous leading customers in scenarios such as ...

Saint Martin (fransk: Saint-Martin, nederlandsk: Sint Maarten, engelsk: Saint Martin) er en tropisk &#248;y i det nord&#248;stlige Karibia, som er delt mellom Kongeriket Nederlandene og Frankrike.&#216;ya er p&#229; 88 km&#178;, noe som er det minste bebodde landareal i verden som er delt mellom to nasjoner. Den franske delen i nord heter Saint-Martin, og er en fransk oversj&#248;isk samfunn (collectivit&#233;d"outr

The purpose of the new entity is the production and sales of electrolytes for batteries related to new energy applications. Zoolnasm was established in 2021 and possesses technological patents related to cathode materials used in high-efficiency Na-ion batteries. In particular, the company has developed an iron-based polyanion compound and a ...
