

Is Samsung SDI ul9540a certified?

Image: Younicos (Aggreko). Lithium-ion battery manufacturer Samsung SDI has claimed an industry first, passing UL9540A test certification for the safe installation of stationary energy storage systems (ESS), with particular regard to the fire risk posed by thermal runaway.

What is Samsung ESS battery?

At the center stage of the exhibit, will stand the latest SBB 1.5, SAMSUNG's flagship ESS battery. SBB is a 20-foot containerized solution for battery energy storage systems and is encased with high-nickel NCA cells and modules stacked on racks.

What batteries are available for ESS?

Under the theme of 'A Sustainable Future Driven by PRiMX,' SAMSUNG SDI will exhibit its lineup of batteries for ESS, including SAMSUNG Battery Box (SBB) 1.5, high-output batteries for uninterruptible power supply (UPS) solution and lithium iron phosphate (LFP) battery for ESS.

Who uses Samsung SDI batteries?

Samsung SDI supplies batteries to a wide range of actors in the energy storage market, including system integrators. Image: Younicos (Aggreko).

Why should you choose Samsung SDI?

Samsung SDI is creating a future energy world on the foundation of technology and innovation. As a global leading provider of lithium-ion batteries and electronic materials, Samsung SDI's innovation and excellence is part of our customers' lives around the world. No.1 market share in Japan. Obtain VDE certifications. Advanced cylindrical 21700 cell.

Will ESS market grow?

"A significant growth is anticipated for the ESS market as the renewable energy market expands and demand for data centers surge in line with the accelerating AI revolution," said Yoon-ho Choi, President and CEO of SAMSUNG SDI.

Samsung SDI and inverter maker Sungrow have signed a JV agreement to build and operate a battery storage plant to service the Chinese market. Image: Samsung SDI. Meanwhile, Samsung SDI also announced in the last few days that it will partner with PV inverter manufacturer Sungrow on a lithium-ion battery storage plant to service the Chinese market.

Chinese companies like CATL, BYD, CALB, Gotion, Sunwoda and Farasis collectively hold two-thirds of the market, while the three major South Korean players - LG Energy Solution, Samsung SDI and SK Innovation -
