Server battery backup Sierra Leone

SiNergy SL Ltd. is an energy solutions provider focused on the design procurement installation and support of PV solar energy and battery backup solutions in Sierra Leone. As a locally developed entity we have over the years understood our environment and the specific requirements needed in deploying successful PV solutions.

SANnav allows you to back up the SANnav server data and restore it as required, such as in scenarios where the data is deleted or corrupted. Also, you can use the backup when you want to bring up a new SANnav server. Creating a backup helps to protect the server"s data and configuration in the event of a disaster, such as a server failure.
