UAE construction giant ASGC appointed Enerwhere as the temporary power provider for their site office in Dubai Creek Harbor. Enerwhere will power the site office as a proof of concept for 6 months ...

Since 2016, the island has drawn power from a solar-hybrid mini-grid installed by Enerwhere, and the new plant is being hailed as one of the world's first floating solar installations in an offshore, salt-water location.

In a quest to reduce the cost and environmental impact of the power generation on the island, Zaya has contracted Enerwhere to supply the power on the island on the basis of a Power Purchase Agreement (PPA). The engineers deployed a customized solar-diesel hybrid system to the island in July 2016, designed to minimize the visual impact on the ...

o The Middle East's off-grid sites may now get dependable and sustainable energy solutions from Enerwhere, a pioneer in solar-hybrid power solutions. Can you tell us more about this novel strategy and how it will affect ...

Enerwhere | 21,610 followers on LinkedIn. Sustainable Energy. Anywhere. | Enerwhere provides reliable energy solutions for commercial- & industrial customers without a (stable) grid connection. Our modular, transportable solar-hybrid micro-grids power camps, construction sites, mines, oil & gas installations, islands, and resorts. Our proprietary data analytics & control solution ...

Dubai, 4 December 2017 Enerwhere, a DEWA certified solar PV contractor based in Dubai, has completed the installation of 300 kWp solar rooftop plant on the roof of Prominent Printing & Publishing Co. L.L.C. in Dubai Investment Park (DIP). This project has been grid connected under the Shams Dubai initiative, DEWA's first smart initiative to connect solar energy to buildings.

The Seychelles are one of the world's most stunning tropical islands destination. The archipelago comprises of 116 islands spread more than 1 million km<sup>2</sup>; of the western Indian Ocean, upper east of Madagascar, with an all-out land zone of 444 km<sup>2</sup>;, making the island country pretty much the size of Andorra, or 2.5 occasions the size of Washington, DC.

The small resort island of Nurai in Abu Dhabi looks set to commission what will be the Middle East's first floating solar plant, with Dubai-based solar developer Enerwhere ready to bring it online. Reports indicate that the 80kW facility is the pilot phase, or test-bed for similar plants in the region.
