

We've built the first part of Northvolt Ett - a block that will produce battery cells for around 200,000 electric vehicles annually - but without skilled, passionate people on the production lines, it's all for nothing. Right now, we're looking for the team to take up duties on the First Shift to work the production lines of Northvolt ...

One week later, Northvolt raises \$5bn non-recourse project financing, the largest green loan in Europe, for the expansion of Northvolt Ett, for its recycling plant Revolt Ett and to re-finance the \$1.6bn loan from 2020. The loan comes from a group of 23 commercial banks, alongside the European Investment Bank and the Nordic Investment Bank.

The company plans to increase the annual production capacity of its Northvolt Ett gigafactory from 40GWh to 60GWh to meet increased customer demand, including a \$14bn order from Volkswagen. The factory is due to ...

Northvolt sent Energy-Storage.news a press release today announcing that a consortium involving commercial banks, pension funds and public financial institutions has signed with the startup for a US\$1.6 billion debt raise. The more than US\$3 billion it has raised to date will be used for R& D as well as for factory development. A recent report from Mercom Capital ...

To secure this, Revolt Ett, the company's first giga-scale recycling plant in development adjacent to Northvolt Ett gigafactory in Skellefteå, Sweden, will be expanded beyond its initial design ...

Swedish battery manufacturer Northvolt has secured a \$5bn (Skr52.31bn) non-recourse project financing deal for the expansion of the first circular gigafactory in the country.. The money will be used to fund the expansion of Northvolt Ett, the company's primary facility in northern Sweden, and will also support the growth of its adjacent recycling plant, Revolt Ett.

Northvolt AB's subsidiary company, Northvolt Ett Expansion AB, filed for bankruptcy on October 8 following the suspension of its major expansion project in September 2024. This decision is directly related to the financial state of the subsidiary, which was tasked with managing the Ett expansion construction project.

A convertible note is a debt instrument that converts to equity at a later date instead of paying principal or interest. Participating investors were AMF, AP funds 1-4 (via the co-owned company 4 to 1 Investments), ATP, Ava Investors, Baillie Gifford, Compagnia di San Paolo through Fondaco Growth, Folksam Group, Goldman Sachs Asset Management, IMAS ...
