

Who manufactures Car batteries in Hungary?

GS Yuasa also produces automotive lithium-ion starter batteries, while Inzi Control also manufactures battery modules. Many of the significant suppliers of the battery industry in Hungary are located directly near the main car manufacturing plants.

Who owns SK battery Hungary Kft?

The decision also affected SK Battery Hungary Kft., the EV battery plant in Hungary, that was renamed SK On Hungary Kft. This also reflects the change of ownership structure, as the new owner of the Komárom plant became SK On Co. Ltd., which is 100% owned by SK Innovation.

Why is Hungary a good place to buy a battery?

Hungary is ideally located on the European battery map, thanks to its central geographical location, investments in cell and battery production facilities, the presence of large car manufacturers and its extensive supplier industry.

Where is the battery industry located in Hungary?

Many of the significant suppliers of the battery industry in Hungary are located directly near the main car manufacturing plants. Since 2016, a total of HUF 1,903.8 billion (EUR 5.29 billion) and approximately 13,757 jobs have been created as a result of working capital investments in the battery industry.

Who is building a battery plant in Hungary?

In August last year, the world's leading battery producer, Contemporary Amperex Technology Co. Limited (CATL), announced a 7.34 billion-euro investment to build a battery plant in east Hungary. EVE Energy, Huayou Cobalt, BYD, and Ningbo Zhenyu Technology have all announced new factory projects over the last few months.

Which companies make lithium-ion batteries in Hungary?

Today, Samsung SDI and SKI Innovation operate several giant factories in Hungary, whose total production will potentially grow to 47.3 GWh by 2025 and up to 87.3 GWh by 2030. GS Yuasa also produces automotive lithium-ion starter batteries, while Inzi Control also manufactures battery modules.
