

What is Himawari solar lighting system?

LA FORET ENGINEERING CO.,LTD. (Mori Building Group) Copyright (C)2022 LAFORET ENGINEERING CORPORATION. All rights reserved. Himawari solar lighting system brings real natural sunlight indoor by using the convex lens and quartz glass optical fiber cables. Let natural light light up your house to improve the life quality.

What is the Himawari system?

The Himawari system consists of a sunlight collector (lens focusing unit), quartz glass optical fiber devices, an automatic tracking system, and the outer acrylic dome. The outer acrylic dome covers all the devices and protects them.

How much light does a Himawari system emit?

Light is emitted at a spread angle of 58° from the edge of an optical cable. At two-meter from the end of the optical fiber, an approximately 1.5-m diameter circle region is illuminated at approximately 1,036 lux on average (per cable) and one Himawari system is equipped with two cables.

Himawari solar lighting system, Minato-ku. 416 likes · 4 talking about this. La Foret Engineering Co. (Mori Building Group), founded in 1991, provides natural lighting solution. Himawari Solar...

The Himawari solar lighting system harnesses natural sunlight through the light-collecting lens unit and travels through optical fiber cables emitting light on the other side into the rooms of homes, offices, factories, warehouses, and other areas where natural light is hard to get through. The system screens out almost all ultraviolet rays ...

Abstract. This paper presents an online platform showing Thailand solar irradiance map every 30 minutes available at <https://methodologyfor.com> methodology for estimating global horizontal irradiance (GHI) across Thailand relies on cloud index extracted from Himawari-8 satellite imagery, Ineichen clear-sky model with locally-tuned Linke turbidity, and machine ...

Himawari solar lighting system provides the real sunlight following the natural sunlight change over time during each day. The circadian rhythm light can help us to control our body's circadian system. Himawari Solar Lighting System Laforet Engineering Co. JP Tel: +81-03-6406-6256

The running cost of the HIMAWARI system is approximately 1 yen a day when equipped with a twelve-lens collector. By using an energy-saving type system that is powered by solar cells, you can reduce the electricity cost to zero yen. · Once the HIMAWARI system is installed, it operates automatically without any need for manual operation.

The Himawari based solar resource data uses the Physical Solar Model version 3 (PSM v3) which is similar to the model used in the National Solar Radiation Database (NSRDB) The Himawari: PSM v3 provides a serially complete collection of 15 minute values of the three most common measurements of solar radiation--global horizontal, direct normal ...
